2015 Calendar

2014 Fiscal Year Annual Report

**THIS IS PUBLIC
HEALTH.**
thisispublichealth.org

Dear Public Health System Partners:

We are excited to release our Fiscal Year 2014 Annual Report and 2015 Calendar of Events. The enclosed pages show that Fiscal Year 2014 brought many changes, one of the most significant being the retirement of Franklin County Health Department's (FCHD) Director, Paula Alexander. Ms. Alexander retired at the start of May 2014 and became Mrs. Paula Sucher very shortly thereafter. The Franklin County Health Department (FCHD) and Board of Health congratulates Paula and Chuck on their wedding and wish them the best. We are grateful for Paula's years of leadership and commitment to the health of Frankfort and Franklin County. FCHD's Accreditation Coordinator, Judy Mattingly, was appointed as Paula's successor.

Fiscal Year 2014 also kicked off a new cycle of assessments including the MAPP (Mobilizing for Action through Planning and Partnerships) community wide strategic planning process and Community Health Assessment (CHA) and FCHD's internal strategic planning process. These efforts are ongoing and are also integral to FCHD's accreditation.

FCHD continued its quality improvement efforts and was awarded two National Association of County and City Health Officials (NACCHO) Promising Practice Awards in 2014. One practice was entitled "Get 'er Funded" and addressed FCHD's grant application process and increased grant funding received. One such grant was awarded by the Kentucky Department for Public Health and allowed FCHD to partner with Walk/Bike Frankfort to develop a pedestrian master plan. See page 14 for more about this grant.

The second practice, "Policy, Systems and Environmental Change Strategy to Increase Access to Pediatric Dental Care," was a partnership between the UK Mobile Pediatric Dental Unit, Franklin County Public Schools (FCPS) and FCHD that continues to provide dental care to eligible FCPS elementary school students through the placement of electrical outlets that power the mobile unit. See page 12 for more details about this innovative practice.

We are extremely appreciative of our many public health system partners for helping us to **Prevent** disease and illness, **Promote** health and wellness and **Protect** Frankfort and Franklin County. Thank you! We hope you find this calendar useful as you plan your events and set community priorities.

Have a Happy and Healthy 2015!

Sincerely,

Dr. Charles Bradshaw, Chair

Franklin County Quality of Life Survey

Please take a minute to complete the survey below. The purpose of this survey is to get your opinion about community health problems in Franklin and Franklin County. The Franklin County Mobilizing for Action through Planning and Partnership (MAPPP) Coalition will use the results of this survey and other information to identify the most pressing problems which can be addressed through community action. If you have previously completed a survey, please ignore this. Remember... your opinion is important! Thank you and if you have any questions, please contact us (see contact information on back).

1. In the following list, what do you think are the three most important factors for a "Healthy Community?" (Those factors which most improve the quality of life in a community.) Check only three:

- ☐ Good place to raise children
- ☐ Low crime / safe neighborhoods
- ☐ Low level of child abuse
- ☐ Good schools
- ☐ Access to health care (e.g., family doctor)
- ☐ Parks and recreation
- ☐ Clean environment
- ☐ Affordable housing
- ☐ Arts and cultural events
- ☐ Mental Health Services
- ☐ Divorce Support

- ☐ Excellent race relations
- ☐ Good jobs and healthy economy
- ☐ Strong family life
- ☐ Healthy behaviors and lifestyles
- ☐ Low adult death and disease rates
- ☐ Low infant deaths
- ☐ Religious or spiritual values
- ☐ A good place to grow old/retire
- ☐ Access to Dental Services (i.e. insurance coverage)
- ☐ Drug Free Community
- ☐ Other _____

2. In the following list, what do you think are the three most important "health problems" in our community? (Those problems which have the greatest impact on overall community health.) Check only three:

- ☐ Aging problems (e.g., arthritis, hearing/vision loss, etc.)
- ☐ Cancers
- ☐ Child abuse / neglect
- ☐ Dental problems
- ☐ Diabetes
- ☐ Domestic Violence
- ☐ Firearm-related injuries

- ☐ Heart disease and stroke
- ☐ High blood pressure
- ☐ HIV / AIDS
- ☐ Homicide
- ☐ Infant Death
- ☐ Infectious Diseases (e.g., hepatitis, TB, etc.)
- ☐ Mental health problems
- ☐ Motor vehicle crash injuries

- ☐ Rape / sexual assault
- ☐ Respiratory / lung disease
- ☐ Sexually Transmitted
- ☐ Suicide
- ☐ Teenage pregnancy
- ☐ Other _____

3. In the following list, what do you think are the three most important "risky behaviors" in our community? (Those behaviors which have the greatest impact on overall community health.) Check only three:

- ☐ Alcohol abuse
- ☐ Being overweight
- ☐ Dropping out of school
- ☐ Drug abuse (including prescription drug abuse)
- ☐ Lack of exercise
- ☐ Poor eating habits
- ☐ Not getting "shots" to prevent disease

- ☐ Racism
- ☐ Tobacco use
- ☐ Not using birth control
- ☐ Not using seat belts / child safety seats
- ☐ Unsafe sex
- ☐ Cutting/Self Harm
- ☐ Other _____

4. How would you rate our community as a "Healthy Community?"

- ☐ Very unhealthy ☐ Unhealthy ☐ Somewhat healthy ☐ Healthy ☐ Very healthy

1. How would you rate your own physical health?
☐ Very unhealthy ☐ Unhealthy ☐ Somewhat healthy ☐ Healthy ☐ Very healthy
2. How would you rate your own mental health?
☐ Very unhealthy ☐ Unhealthy ☐ Somewhat healthy ☐ Healthy ☐ Very healthy
3. How would you rate your personal safety in your home?
☐ Very unsafe ☐ Unsafe ☐ Somewhat safe ☐ Safe ☐ Very Safe ☐ N/A Retired/Unemployed
4. How would you rate your personal safety in your workplace?
☐ Very unsafe ☐ Unsafe ☐ Somewhat safe ☐ Safe ☐ Very Safe ☐ N/A Retired/Unemployed
5. Where do you currently receive your health information? (Please check all that apply)
☐ TV ☐ Internet ☐ Doctor/Medical Provider ☐ Health Department
☐ Magazine ☐ Newspaper ☐ Community Education ☐ Other

Please answer questions #10 - 17 so we can see how different types of people feel about local health issues.

6. Age: ☐ 25 or less ☐ 26 - 39 ☐ 40 - 54 ☐ 55 - 64 ☐ 65 or over
7. Sex: ☐ Male ☐ Female
8. Ethnic group you most identify with:
☐ African American / Black
☐ Asian / Pacific Islander
☐ Hispanic / Latino
☐ Native American
☐ White / Caucasian
☐ Other
9. Marital Status
☐ Married / Cohabitating
☐ Not Married / Single
10. Education
☐ Less than high school
☐ High school diploma or GED
☐ College degree or higher
11. Household income
☐ Less than \$20,000
☐ \$20,000 to \$29,999
☐ \$30,000 to \$49,999
☐ Over \$50,000
☐ Prefer not to answer
12. How do you pay for your health care? (Check all that apply)
☐ Pay cash (no insurance)
☐ Private insurance
☐ Medicaid (i.e. Affordable Care Act)
☐ Medicare
☐ Veterans' Administration
☐ Other _____
13. Additional Comments: (Please provide name and contact information to be put in for a drawing of one of ten \$20 gift cards)

Please return completed surveys to the address below by **March 16, 2015**.

If you would like more information about this community project, please contact us at the number below.

Investigate health problems and environmental public health hazards to protect the community

*FCHD Staff and KSU Nursing Students Practice
Emergency Response Skills at Annual “Three for Free”
Drive-Through Flu Clinic*

FCHD’s annual “Three for Free” Drive-Thru Flu Clinic is used as a training or exercise to prepare personnel who will serve in a surge capacity. The exercise assesses FCHD’s support personnel and infrastructure capacity for providing surge capacity for rapid detection, investigation, and containment/mitigation of public health problems and environmental public health hazards. “Three for Free” specifically serves to test our community’s mass medication dispensing ability. Mass dispensing of medication within a short window of time would be needed if a major disease outbreak or incident of bioterrorism were to occur. The clinic follows the Strategic National Stockpiles (SNS) Countermeasure Dispensing Program. During the “Three for Free” Drive-Thru Clinic, Kentucky State University nursing students provided assistance in giving shots along with health department staff. A total of 169 vehicles passed through the Point of Dispensing. Two hundred forty-eight vaccinations were given during the two-hour clinic. The average time from registration to receiving the shot was seven minutes! During the October 30, 2014 exercise over 800 pounds of non-perishable food and \$200.00 dollars in donations were received by the Emergency Food Pantry for Franklin County.

FLU VACCINATION DRIVE THRU CLINIC

The Franklin County Health Department will conduct a drive-thru clinic on
Thursday, October 30th from 5:30pm - 7:30pm*
at the Commonwealth Credit Union (CCU) located at 101 Sower Blvd.

**You must be in line by 7:30pm to receive your vaccine.*

**3
For
FREE**

Bring in 3 non-perishable food items and receive your flu shot for free!
All proceeds will go to the Emergency Community
Food Pantry of Franklin County.

This vaccination will include protection against major circulating flu viruses.

This clinic is for adult Franklin County residents only. The Franklin County Health Department
will visit public schools this Fall to provide the vaccine to school aged children.

The HANDS Program provides free support for first-time parents in the prenatal period through the baby's second year. Families receive home visits that encourage the overall goals of HANDS which are:

- Positive pregnancy outcomes
- Optimal child growth and development
- Children living in healthy and safe homes
- Family self-sufficiency

Home Health

Franklin County Home Health provides skilled services in the home allowing individuals to recover in their own environment. The services provided are

Nursing, Physical Therapy, and Occupational Therapy. In some cases the patient may qualify for assistance with personal care and homemaking through our Medicaid Home and Community Based Waiver Program. It is our goal to provide the patient with personal, compassionate, professional services to prevent re-hospitalizations, nursing home placements, and further debility. We work with the patients' doctors to develop individual care plans. Some examples of services provided are wound care, medication and diagnosis teaching, intravenous infusions, assessments, teaching caregivers how to care for their loved one, rehabilitative exercises after knee and hip replacements, strengthening and self care after hospitalizations or surgery. If you feel that you or someone you know could benefit from home health services, contact us at 502-564-7383, option 5.

It's all about fun...it's all about fitness. The Longest Day of Play (LDOP) is a physical activity initiative which began in Franklin County in 2007 with the following goals: to inform citizens of local physical activity opportunities, to involve people of ALL ages and fitness levels in physical activity and get Franklin County residents up, moving and active!

The event is committed to fulfilling essential public health service 4: Mobilize community partnerships to identify and solve health problems.

The LDOP steering committee is made up of local businesses, civic organizations, community volunteers and the local health department that collaborate to promote active lifestyles which prevent many chronic diseases. LDOP celebrated its largest turnout in 2013 with 42 vendor booths and 1450 participants that came out to play.

Develop public health policies and plans

The *Healthy* Communities Pedestrian Master Plan *For the City of Frankfort, Kentucky*

A healthy communities grant was awarded to FCHD for 2014 to improve access to physical activity by developing a Pedestrian Master Plan for the City of Frankfort. FCHD, in coordination with The City of Frankfort, Franklin County Emergency Management, Kentucky State University, WalkBike Frankfort and Downtown Frankfort Inc, promoted and conducted a "sidewalk survey" to determine where the Frankfort community would prefer to see new sidewalks and improved pedestrian routes. Our planning team's goal was to craft a Pedestrian Master Plan that would be easy for the City Commission, City staff, and the larger Frankfort community to support and adopt as a framework for establishing

new sidewalks that could connect neighborhoods with parks/physical activity outlets and increase access to healthy food venues. The Pedestrian Master Plan is realistically composed of feasible projects that reflect the wishes of the Frankfort community. Many thanks to Frankfort's City Commission who adopted the Pedestrian Master Plan on July 28, 2014 to provide guidance to City staff and the City Commission as new sidewalk projects are considered in the future. Having an adopted plan in place will make it much easier for the City to secure grants and outside support for new sidewalk development, resulting in significant savings for the City of Frankfort.

The Environmental Health team regulates onsite wastewater disposal pursuant to Kentucky Revised Statutes and adopted regulations. The Registered Sanitarian is conducting a site evaluation to determine size, type, and depth of a septic system. Sanitarians inspect, permit, and regulate over 40 various types of facilities and areas in Frankfort and Franklin County, to ensure that the public's health and safety is protected every day. Enforcing public health laws and regulations is essential to a healthy community.

For more than 35 years, the Franklin County Health Department has collaborated with local veterinarians to provide low-cost rabies vaccination clinics every May. Kentucky rabies law requires all cats, dogs and ferrets over 12 weeks of age to maintain a current rabies vaccination. This partnership delivers a low-cost service that protects pets and their owners. Our success with this program is not limited to Franklin County citizens alone; many people drive in from other counties to take advantage of this program.

Evaluate and continuously improve health department processes, programs, and interventions

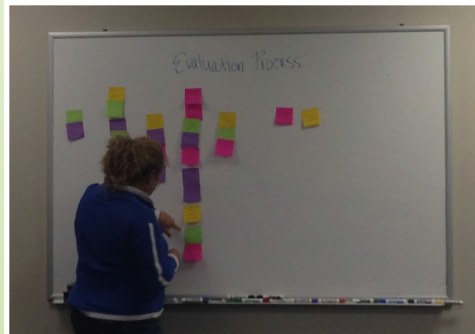

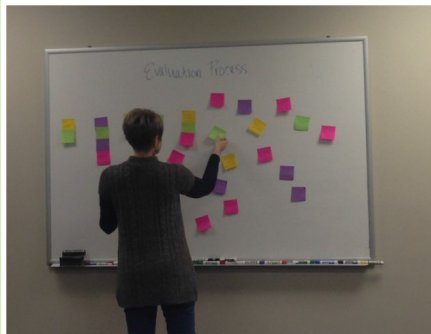

FCHD continues to implement several quality improvement projects annually. Two of our biggest successes came out of clinic and school health. Clinic has implemented same-day scheduling where the no-show rates have plummeted to less than 1%. School health and the school board implemented a policy indicating all students must be seen by the school nurse before being sent home resulting in a significantly lower rate of absenteeism.

A new FCHD QI Steering Team was created in September of 2014. The team members are to be the point person for their individual departments in providing guidance and assistance with health department wide QI projects.

The new team consists of:

Leah Aubrey, Clinic
Jenny Bardroff, Environmental
Debbie Bell, Health Education
Amber Carmack, Clinic Support Staff
Becki Casey, Administrative
Brittany Noe, Accreditation/QI
Shannan Rome, HANDS
Missy Sency, School Health

To-date we have three quality improvement projects started since forming this new team- New Employee Orientation, Employee Evaluations, and Clinic MasterCard/Chart project with many more in the works for 2015!

Contribute to and apply the evidence base of public health

In December 2014, we visited Kentucky State University (KSU) to highlight their World AIDS Day Program hosted by the Driving Our Peers Education Organization (D.O.P.E). The program began with a 6000 balloon release into the morning sky, marking the number of individuals in KY that will die this year from HIV/AIDS.

KSU Student Raven Norman, and FCHD Staff Debbie Bell

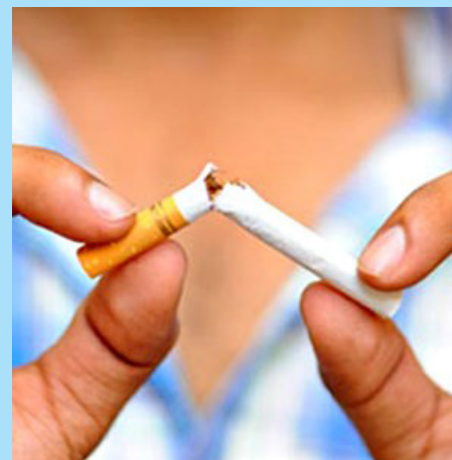

FCHD Staff: Susan Nesselrode, Leah Aubrey, Debbie Bell

Working on Wellness (WOW) is a television program produced in partnership with our local cable network, Frankfort Plant Board's Cable 10 Advertising. The monthly health-related segments allow the local health department to provide an example of how our partners evidence-based programs can be incorporated into current media outreach to disseminate vital preventive care information to target groups within our community. WOW provides an innovative solution to sharing timely health messages with residents that might otherwise experience barriers to information sharing. The WOW program has recently been submitted to the National Association of County and City Health Officials (NACCHO) Model Practice Database.

Smoking is the leading actual "cause of death" in the U.S.; and these deaths are preventable. Science-based programs to help individuals stop smoking are important interventions for public health and the healthcare delivery community. The Cooper/Clayton Method is being implemented by every health department and the Kentucky Cancer Program throughout the state. As the former Director of Cancer Control in Kentucky, it is apparent to me that the Cooper/Clayton program is the most popular and respected cancer control initiative in Kentucky.

Domain 12

Maintain capacity to engage the public health governing entity

Governing Board Functions include (902 KAR 8:150):

- Assure that the services provided meet the needs of the local citizenry, to protect and promote public health.
- Establish priorities and objectives based on a community assessment and resources of the agency for:
- Service delivery, considering federal and state disease prevention and health promotion objectives; and
- Specific health and safety needs of the community.
- Assure that financial controls and program evaluation measures are ongoing to facilitate effective and efficient agency services and operations.
- Interview and hire an agency director in accordance with 902 KAR 8:040 through 902 KAR 8:140.
- Communicate board policies and priorities to the agency director:
- Evaluate the performance of the agency director, at least annually. The director/administrator must have clear direction from the board and is accountable for execution of board policies;
- Review information and data provided by the agency director to assess the effectiveness and efficiency of the agency in complying with federal and state public health laws, regulations, and board policies; and
- Promote professionalism in health department operations in fulfilling its public health mission.

More information about Board of Health functions can be found in the Kentucky Department for Public Health Administrative Reference located at <http://chfs.ky.gov/dph/ar2014.htm>

Ted Collins receiving the Board of Health Award in Dec 2014.
